# Second Floor

## **Antitrust Policy**

All meeting participants should constantly bear in mind that under no circumstances should these meetings be used as opportunities to discuss with any competitors' or suppliers' personnel prices or terms or conditions of sale or any other topics which may involve you or your company in any dangers or risks of violation of the United States Antitrust and Trade Regulation Laws.

It is especially important that no such discussions should take place at informal sessions either before or after the scheduled meetings.

Please review the NFDA Antitrust Guidelines and/or consult with legal counsel for specific guidance along these lines.

### **NFDA ANTITRUST GUIDELINES**

The antitrust laws prohibit agreements or understandings between two or more businesses to regulate prices or quantities of goods or services, to allocate customers or territories, to hinder or limit a competitor or potential competitor's operations or otherwise unreasonably to restrain business activity. Discriminatory pricing or servicing is also prohibited.

Violation of these laws can be costly and dangerous, involving possibly going to jail and heavy fines. The following rules are not complete. They highlight the more common problems, but other activity can be illegal. Any activity involving agreement or joint action with your competitor should be a red flag for you to be cautious.

DO NOT discuss or exchange information regarding your prices or competitor's prices with a competitor (except when buying from or selling to him, and then only those specifics).

DO NOT discuss or exchange information with competitors which might affect prices, such as price differentials, discounts, margins, costs or terms of sale.

DO NOT agree with competitors to uniform terms of sale, warranties or contract provisions.

DO NOT agree with competitors to divide customers or territories

DO NOT discuss your customers with your competitors.

DO NOT act jointly with one or more competitors to put another competitor at a disadvantage.

DO NOT try to prevent your supplier from selling to your competitor.

DO NOT discuss your future pricing, marketing or policy plans with your competitor.

DO NOT discuss bids or procedure for responding to bids. NEVER make courtesy bids.

DO NOT boycott or refuse to deal with any supplier or customer.

DO NOT discuss any subject with a competitor which affects competition.

OBJECT to any improper discussions in your presence. If they persist, LEAVE.

Follow these rules wherever you are, whether at a formal meeting, a social gathering, on the golf course or in an elevator.

REMEMBER, you must avoid even the appearance of antitrust violations. Say or do nothing from which anyone could believe or even suspect a conspiracy to restrain trade.

### **Conflict of Interest Policy**

This Conflict of Interest Policy of the National Fastener Distributors Association (1) defines conflicts of interest; (2) identifies classes of individuals within the Organization covered by this policy; (3) facilitates disclosure of information that may help identify conflicts of interest; and (4) specifies procedures to be followed in managing conflicts of interest.

1. Definition of conflicts of interest. A conflict of interest arises when a person in a position of authority over the Organization may benefit financially from a decision he or she could make in that capacity, including indirect benefits such as to family members or businesses with which the person is closely associated. This policy is focused upon material financial interest of, or benefit to, such persons.
2. Individuals covered. Persons covered by this policy are the Organization's officers, directors, chief employed executive and chief employed finance executive.
3. Facilitation of disclosure. Persons covered by this policy will annually disclose or update to the Organization President on a form provided by the Organization their interests that could give rise to conflicts of interest, such as a list of family members, substantial business or investment holdings, and other transactions or affiliations with businesses and other organizations or those of family members.
4. Procedures to manage conflicts. For each interest disclosed to the Organization President, the President will determine whether to: (a) take no action; (b) assure full disclosure to the Board of Directors and other individuals covered by this policy; (c) ask the person to recuse from participation in related discussions or decisions within the Organization; or (d) ask the person to resign from his or her position in the Organization or, if the person refuses to resign, become subject to possible removal in accordance with the Organization's removal procedures. The Organization's chief employed executive will monitor proposed or ongoing transactions for conflicts of interest and disclose them to the Organization President in order to deal with potential or actual conflicts, whether discovered before or after the transaction has occurred

**FASTENER  
TRAINING  
INSTITUTE**

## Enhancing NFDA Member Benefits with Fastener Training Institute

Fastener Training Institute (FTI) is the leader in fastener training. With industry-expert instructors and comprehensive content and materials, FTI offers proven and trustworthy education for all levels of fastener professionals.

With discounts for FTI's training programs, NFDA's members will gain knowledge, skill, and confidence. Confident employees contribute more and are committed to longevity so it's a win-win for employees and employers when training is prioritized.

### **Discounts for NFDA Members**

NFDA members will be eligible for discounts across all aspects of FTI's training programs.

### **NFDA Member Meetings**

FTI is available to attend NFDA semi-annual member meetings and provide large-group presentations and customized smaller group classes. Our instructors can tailor content and programs to meet specific goals for each meeting.

### **On-Site Classes for NFDA Members**

Through collaboration with NFDA member companies, FTI can customize on-site classes. FTI offers an extensive list of classes, including Fastener Basics, Product Training, and Understanding KPI's in your ISO Management System. Classes can be combined and tailored.

### **NFDA Member Access to FTI's Online Learning Library (OLL)**

With 60+ pre-recorded videos and a host of live webinars, FTI has fastener education available around the clock. Each member company will be eligible for one free webinar each year in addition to discounted subscription and class rates.

### **Annual Corporate Training Agreements**

For NFDA member companies who want to go all-in with custom fastener training, FTI can create an annual Corporate Training Agreement. These agreements are created based on company size, employee skill level, and specific training needs. It might include an annual subscription to the Online Learning Library, an on-site Fastener Basics class and free tuition for an unlimited number of students to attend Fastener Training Week. The annual agreements include a defined scope of work and can be renewed each year.

### **About Fastener Training Institute**

The Fastener Training Institute is a nonprofit organization that provides beginning and advanced training on fastener products, standards, and specifications. Its core purpose is to enhance fastener use, reliability and safety. Our mission is to make industry professionals more knowledgeable about the fastening products they buy, sell, specify or use.

**For more information, contact Jo Morris at [jom@fastenertraining.com](mailto:jom@fastenertraining.com) or 562-473-5373.**

TRAINING  
INSTITUTE**

# FASTENER TRAINING WEEK

Sponsored by:

**NOVEMBER 18-22, 2024 | CLEVELAND, OH**

## ACCELERATED TRAINING FOR THE FTI CERTIFIED FASTENER SPECIALIST™ (CFS) DESIGNATION

Fastener Training Week features learning labs, interactive exercises and quizzes to reinforce learning taught by leading industry experts. The content includes manufacturing processes, consensus standards, quality control and includes a day of plant tours of manufacturing, secondary processes and testing facilities.

Instead of seven separate one-day classes, Fastener Training Week offers five intensive days of education and plant tours as part of the acclaimed FTI Certified Fastener Specialist™ (CFS) advanced technical training program. After completing this invaluable industry training in a small group environment and passing a final exam, attendees are eligible for the Certified Fastener Specialist™ (CFS) designation.

### WHO ATTENDS?

- Fastener distributors
- End users
- Fastener manufacturers
- OEMs

### TOPICS:

- Thread and material specifications
- Process and dimensional specifications
- Quality assurance systems and specifications
- Lot traceability and test reports
- Print reading and tolerances
- Thread gaging and dimensional inspection
- Torque tension

**Plant tours will take place on the third day of training.**

**LEARN MORE AND REGISTER at  
[www.fastenertraining.org](http://www.fastenertraining.org)**

## PRICING

**\$3,300** first person per company  
**\$2,800** each additional person per company

**Prices increase \$500 November 5**

**Additional \$500 discount for Pac-West, NFDA, IFI, MWFA, NCFA, and SFA members.**

**Industrial Fasteners Institute  
6363 Oak Tree Boulevard  
Independence, OH 44131**

“The CFS program drastically shortened my learning curve regarding fastener specifications. The program materials were well organized and professional. Each instructor was very knowledgeable and infused the lesson topics with real world examples. CFS is a great program taught by excellent instructors.

This course helped me gain a solid understanding of mechanical engineering and develop the technical knowledge important to this field. It also makes me realize the complexities and challenges we face, and that makes the work even more interesting.”

FASTENER  
TRAINING  
INSTITUTE

# NEW! Spanish Webinar Series

*Presentado en inglés y español*

**Introducing our new live webinar series presented in both English and Spanish. It's the perfect training opportunity for your entire team. Register for one or register for all.**

Each 90-minute webinar will be presented in English by Salim Brahimi, IFI's Director of Technology, and translated into Spanish by Carlos Suarez, Industrial Engineer and Quality Control Specialist at Pernostock.

Fastener training and continuing education is important across all job functions in the industry. Whether it's understanding the basics, learning new trends or becoming confident navigating standards, Fastener Training Institute has you covered with all your training needs.

**“Spanish training has been a goal of ours for years. Removing the language barrier for training is important and it will make the perfect training opportunity for entire teams. It's critical everyone in our industry has access.” — FTI'S MARKETING DIRECTOR, JO MORRIS.**

**LEARN MORE AND REGISTER AT**
